

FAQ's PURE AWARENESS RETREAT

Speaking Light-to-Light, Love-to-Love, Energy-to-Energy

November 6 -8, 2020

Virtual retreats provide a unique set of circumstances. You don't have to worry about travel, hotels, or food, but when you are in a retreat setting, you feel safe, protected, and distractions are at a minimum. The benefits of "retreating in place" include being comfortable in your own space, building higher frequencies in your home and meditation room, and having the perfect food, bed, and chair. Distractions are the main challenge.

Set aside the time to focus solely on the retreat. Let your friends and family know you want this time for your spiritual self-care. Assure them they will love you so much more after the retreat. You will be so delightfully patient and serene!

Commit to creating a setting that is conducive for transformation. Be sure to have a comfortable chair or couch where your feet can touch the floor. Sitting outside is great as long as trucks aren't whizzing by, and weedwhackers and mowers are quiet. Birds and animals are most welcome! Make sure you have food and water so you don't have to go to a store and set up space where you won't be disturbed during and between the sessions. The schedule will include breaks approximately every two hours to eat and rest.
